OC500

Fingerprint Time & Attendance System

ANVIZ BIOMETRIC

OC500 TIMECLOCK

The Bio-Office OC500 is our RFID employee time & attendance system. Equipped with an ethernet port & superior USB flash memory downloading capabilities. Designed for small to large size businesses with up to 20,000 employees. With the Bio-Office OC500 RFID technology you can track your employee's time and attendance with the swipe of card. Each employee is provided with a unique RFID Card or Key-tag. To clock in or out, the employee passes the RFID Card/Key-tag near the time clock, and the RFID reader records the time of entry or exit. A large easy to read LCD screen displays the current time and the in/out punch indications for each employee. Unlike most of the time clocks sold today the Bio-Office® OC500 is a wall mounted standalone time clock and does not require a computer to collect employee time, it stores all employee information in it's built-in memory, up to 200,000 employee transactions can be stored in the OC500 time clock, an internal battery ensures punches stored in the terminal are retained even in the event of a power outage The OC500 also has our fastest micro processor for more efficient operation in a heavily used environment. The OC500 also comes standard with voice notifications when employees clock in or out and also displays the employee name on the LCD screen.

THE OC500 IS IDEAL FOR :

Small & Large Businesses

Medical Offices

Retail Stores

**Restaurants & Bakeries**

Schools

...and many more!

USB Flash Download

LAN/WAN Network TCP/IP Connection

Up to 20,000 Employees

WHAT IS INCLUDED IN THE BOX

- 1 Anviz Biometric OC500 Series Employee Time Clock
- 1 Bio-Office Employee Time & Attendance Software License CD
- 1 6ft USB Cable
- 1 Wall Mount
- 1 Power Supply 110/220 Volts
- Tracking capability for up to 20,000 Employees
- 30 Days Free Technical Support
- 1 Year Warranty
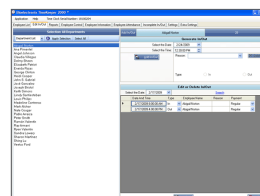

EMPLOYEE TIME & ATTENDANCE SOFTWARE

The Bio-Office® Employee Time and Attendance system is designed to automate employee time and attendance. The Bio-Office intuitive, easy to use interface will dramatically reduce the number of hours required to process employee time and attendance and automatically calculate total worked hours including overtime, vacation, sick days and holidays. With the click of a button you can import employee data and create many informative time and attendance reports, Bio-Office employee time and attendance software exports employee attendance seamlessly into QuickBooks®, ADP®, Paychex®, and to most major payroll provider's applications, reports can also be exported in Microsoft Excel®, Microsoft Word® or Text (csv) format.
